

Overseeing Two Generations of Service.

JTA is proud that many Senior Pilots select our company to sell their Twin Cessna. To many, their Twin Cessna is more than just an aircraft. It's often a trusted friend or family member. There are lots of memories attached to it.

The Cessna line of Multi-Engine aircraft continues to provide a new generation of owners with years of reliable service for business and their families. Our clients are assured that JTA will provide both the Seller and the Buyer with the comfort that the world's leading Twin Cessna Specialist is handling the entire marketing/sales process.

Give us a call to discuss your aviation needs.
