

JERRY TEMPLE AVIATION, INC.

CAN YOU RELATE?

JERRY TEMPLE AVIATION receives calls daily from owners of Piper High Performance Singles such as the Saratoga, Turbo Arrow and other aircraft.

The need for a larger and faster aircraft due to family growth and business needs is common. The frequent answer to this need is a twin Cessna. And the one name that these twin Cessna buyers keep seeing and hearing about is Jerry Temple Aviation. JTA has earned a reputation for honesty, integrity and professionalism.

JTA supports these pilots with determining the right twin Cessna for their missions and supporting their acquisition of the right airplane. Financing, insurance, pre-purchase inspection, delivery support and training are areas where professional support is essential.

JTA sincerely hopes that your Piper aircraft has provided your business and family many hours of satisfied flying. However, when the time comes that selling your current aircraft and investing in a twin Cessna is the right decision, calling Jerry Temple Aviation is the wise action to take. Call Jerry Temple for a "no strings attached" discussion of your aircraft, your plans and JTA's procedures.
