NO BORDERS. Jerry Temple Aviation (JTA) has supported many Owners and Pilots in Mexico and Central America in the purchase of a Cessna 300 or 400 Series Twin or Conquest I or II Turboprop. From the first call to JTA to the final delivery, they know they are working with the **true professional Twin Cessna and Conquest Sales Specialist** to support a complex project.

JTA can assist Buyers with establishing a US Corporation/Trust that allows for the aircraft to remain US-registered, though owned by non-US citizens. JTA also guides non-US Buyers/Pilots in obtaining a US FAA Private Pilot Certificate/Ratings, and FAA Commercial or ATP Certificates. JTA's knowledge and experience guides Buyers to the best aircraft for their mission, then oversees the process of exporting the aircraft. Trust and expertise has no borders. Call Jerry Temple Aviation for an initial consultation.
